Qualifies for IRS Section 179 Tax Savings

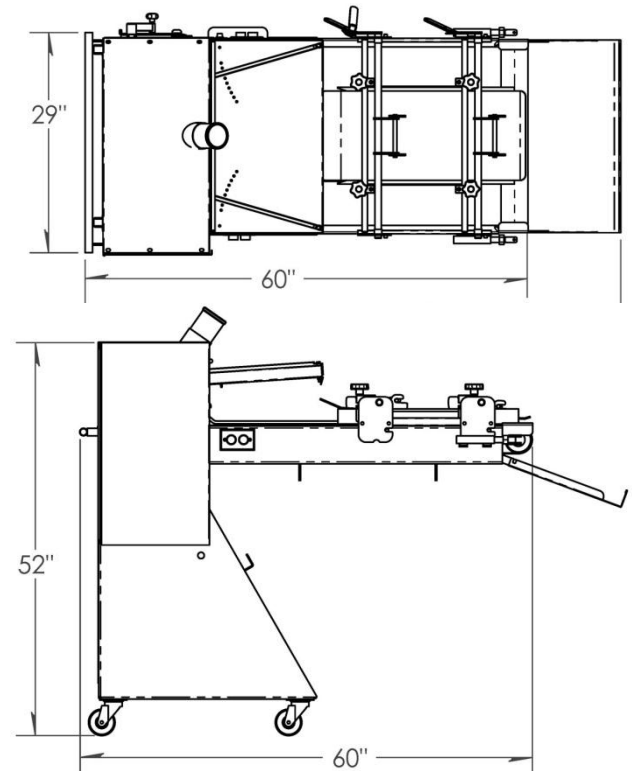

A new Bloemhof moulder can help you increase productivity and reduce labor cost, while maintaining the quality and consistency of your finished product

The Simplex 4-24 gives you the best of sheeting & moulding. This combination machine is ideal for the busy retail or in-store bakery. The heavy duty design is simple to use and is the most reliable machine in it's class.

Traditional Sheeter/Moulder combinations are the workhorse of the retail and supermarket bakery. Sheet delicate pasty dough one minute, switch to moulding and make hundreds of loaves effortlessly. Several models with additional features are available. When you need to sheet and mould in a compact space and want a reliable machine with legendary performance, contact Bloemhof.
