

# DUNEPACK SERIE D60

OUR BUSINESS : the bread packaging

With the **polyvalent machine**, pack all shapes and sizes of bread

## 100 % time savings

No more manual labeling – branding is done directly on the packaging with a label deposit.

## 100% presentation quality

Label is always well placed, no more off-center labels.

## Saving money

Improve ROI (return on investment)

Why do in **two moves** what you could do in **one**?

**Cadence 2400 units/hours with one operator**

## Enhance the presentation of your bread with clear window paper bag packaging

All Dunepack machines use paper packaging with perforated clear windows of different colors and coil machine widths with the possibility of personalizing your printing using up to three colors

# Machine D60 – scale to any size breads

Supports up to **8 rolls**

Adjusts **quickly and easily**  
to all lengths and shapes
