¹PPC-300WP's are manufactured as IP68. If units are opened, they can be closed on-site for an IP65 rating or returned to Yamato for re-sealing to ensure continued IP68 protection. Only Yamato authorized technicians using Yamato approved equipment can assure the integrity of the IP68 protective seal after it has been opened; opening of this unit by anyone else will void the IP68 warranty against internal water damage. *Combined units, such as pound-ounce, are not legal for trade.
